

THE CYBORG AND CO-BOT CLAN

WHAT?

This tribe is interesting as it explores the concept of transhumanism and imagines us creating a world where robots and co-bots are recognised as citizens of planet Earth, working side by side with humans and helping create new and unimaginable economic and social opportunities.

WHERE?

The United Arab Emirates is gearing up for the future by embracing technology and appointing a State Minister of Artificial Intelligence. The country has also offered the humanoid robot Sophia citizenship. Bear Robotics robot named Servi who assists restaurant staff by delivering food to tables
